Procedure for action to be taken when our products reach 'end of life'.

1) Many of Bolton Electronics Ltd products are classed as 'components of a system' and it is therefore the responsibility of the system supplier / installer to dispose of them in the correct manner. Please contact us if clarification of this is required.

2) Bolton Electronics Ltd is to be the first point of contact in taking back WEEE not covered by the above statement. We will then make a decision based on our knowledge of the product(s) as to whether the product(s) should be returned to us or whether Comply Direct will collect for us.

3a) Large items (control panels etc) will be collected (in the UK) by Comply Direct.

3b) Small items (panel mounting instruments and pc boards) will be returned to us and stored at our premises. We will then arrange collection from our premises by Comply Direct when a reasonable amount (>250Kg) has built up.
